Summary

I've always been a great problem solver, an independent introvert, and a technophile obsessed with the latest devices.

I started learning to code when I was a teenager, though it was always more of a hobby than a career focus. After a college education in Psychology, and continuing to pursue that hobby, I realized software engineering was the right field for me.

I'm familiar with a variety of programming languages, including C++, HTML, CSS, JavaScript, React, Node.js, Express.js, MySQL, ORM Sequelize, Firebase API Integration.
